EDUCATION

JUNE 2019

SASTRA UNIVERSITY

Master of Computer
Applications

SKILLS

- Team Player
- Technical Leadership
- Customer Relations
- Critical Thinking

TECHNOLOGIES

- FE Development:** HTML5, CSS3, Bootstrap, Material UI, AngularJS, SASS/LESS
- Programming Languages:** JavaScript, TypeScript, JAVA
- Libraries:** React.js, Redux, React Router
- Testing:** Jest, React Testing Library, Playwright
- API:** Axios, Fetch
- Platforms:** SonarQube, Jira, Rally, Postman, Swagger, GitHub, Jenkins
- Database:** SQL (Basics)

RECOGNITIONS

- Winning Together Award** – BNP Paribas Bank
- Service and Commitment Award** – HDFC Bank

PROFILE

Senior Full Stack Developer with **10+** years of experience delivering enterprise-grade web applications for banking and financial services. Expertise in designing scalable frontend architectures using **React, Next.js, TypeScript, NX Monorepo**, and modern functional programming with Effect. Strong experience building cloud-native applications using **AWS, Docker, Kubernetes, Terraform, PostgreSQL, GraphQL, and CI/CD** pipelines. Experienced in frontend architecture, performance optimization, automated testing with **Playwright and Jest**, DevOps practices, and Agile delivery. Solid **Java** backend knowledge enabling effective collaboration across full-stack teams.

WORK EXPERIENCE

BNP Paribas Bank

2021 – 2026

Senior Developer

- Designed and developed enterprise-scale React applications using TypeScript, React Hooks, Redux Toolkit and modern component architecture.
- Developed reusable UI component libraries using Tailwind CSS and Material UI.
- Migrated legacy applications toward modern React architecture improving maintainability by 40%.
- Built scalable frontend applications using NX Monorepo architecture.
- Integrated GraphQL and REST APIs for real-time banking services.
- Collaborated with Java Spring Boot teams for backend integration.

Belgium Rail [SNCB/NMBS]

2020 – 2021

Senior Developer

- Developed scalable React applications using TypeScript and Redux.
- Implemented responsive interfaces using Tailwind CSS.
- Integrated SAP SuccessFactors APIs.
- Built reusable shared components.
- Improved accessibility (WCAG).
- Increased application performance using React optimization techniques.

HDFC Bank

2017 – 2020

Developer Team Lead

- Led a team of four frontend developers.
- Designed enterprise Single Page Applications using AngularJS.
- Established coding standards and best practices.
- Improved application performance through optimization.
- Worked closely with UX designers and product owners.
- Implemented reusable UI components.

IDFC Bank

2016 – 2017

IMPS Application Production Support

- Troubleshooted frontend performance issues and optimized existing web applications.
- Monitored application logs, identified errors, and deployed necessary patches.
- Worked on SQL Databases and performed root cause analysis of application failures.

LANGUAGES

- English (Fluent)
- French (Beginner)

PROJECT

Easy Banking Employee Portal | BNP Paribas

Duration: 2021 – Present

Role: Senior React / Full Stack Developer

Project Overview:

Developed and maintained a secure EBE Portal used by internal employees for digital banking services, account management, and financial operations to serve clients.

Key Responsibilities

- Designed and developed scalable web applications using React, TypeScript, Next.js, and Redux Toolkit.
- Built reusable UI components with Tailwind CSS and Material UI, improving development efficiency.
- Implemented GraphQL and REST API integrations with Java Spring Boot backend services.
- Worked in an NX Monorepo architecture to manage multiple applications and shared libraries.
- Optimized application performance using lazy loading, memoization, and code splitting.
- Developed unit tests using Jest and React Testing Library, and end-to-end tests using Playwright.
- Containerized applications using Docker and supported deployments on Kubernetes.
- Collaborated with DevOps teams to automate deployments using Jenkins CI/CD and manage AWS infrastructure.
- Participated in Agile ceremonies, architecture discussions, code reviews, and mentoring junior developers.

Technologies

React • TypeScript • Next.js • NX • Tailwind CSS • Redux Toolkit • GraphQL • Java • PostgreSQL • Docker • Kubernetes • AWS • Terraform • Jenkins • Playwright • Jest • Git • SonarQube
